Dear Professor Srivastava,

Greetings from Mauritius. Trust this finds you well.

My Name is Balbir Verma and I am an Alumnus of Department of Urology and Renal Transplant, SGPGIMS. I completed my MCh in Dec 1999. Currently I am working as Senior Consultant in Minimally Invasive Urology and Renal Transplant in Mauritius.

As we know, medicine is an ever evolving science and so is urology. Lots of water has flown under the bridge since I passed out from SGPGIMS. It's important to keep abreast of the new technologies and expertise to keep pace with the fast moving speciality like urology.

We plan to adopt robotics in our existing minimally invasive urology program here in Mauritius in order align ourselves with recent developments in the field of Urology and Renal transplant. There can't be a better place than my Alma Mater to revisit, retrain and learn the newer skills in Robotic urology and renal transplant under your guidance.

I request you to please admit me for refresher training in Robotics. I shall be highly grateful if you could consider me for the same. It will also be a great help for a friendly nation like Mauritius to start Robotic surgery here.

Warm regards
