OFFICE ORDER

Sub: Covid preparedness :

In view of the low numbers of covid patients, but a looming threat of resurgence at any time, the following arrangements have been made:

1. T3 in RCH-2, will be the stand-alone multi-purpose unit (T3/ICU/HDU) for covid treatment at SGPGI, and will be kept in state of readiness for any Covid admissions.
2. Shift-wise rosters of all concerned staff (Faculty/Residents/Nurses/Hospital attendants/Sanitary workers) shall be prepared by concerned roster committees/supervisors and floated, so that it be made functional within 1-2 hours in case of any Covid admission to the T3. These shall be prepared, but kept in abeyance, till the need for admission.
3. Residents roster will be prepared by resident-roster committee. This roster will be a stand-by roster and the residents shall be withdrawn from department only in case a patient is admitted. As new batch of MD, DM/MCh and PDCC/ PDF residents have recently joined in almost all the departments, no department shall be permitted to refuse residents for COVID duties. Currently, all departments are asked to contribute only 10% of their department's residents for this roster. Department HODs must submit their 1st, 2nd, 3rd choice of residents in that sequence for T3, to facilitate making of the resident roster.
4. Mock-drill of T3 has been undertaken recently, and the shortcoming identified in the T3 area have been rectified.

This is being issued with approval of the director on N.S. no 7 of RSD file no. 2136/22.

(Prof. Gaurav Agarwal)
Chief Medical Superintendent
