

23rd ICMR Course on Medical Genetics & Genetic Counseling

Multidisciplinary Approach: 21st September to 03 October 2026

Organized by:

Department of Medical Genetics,
Sanjay Gandhi Postgraduate Institute of Medical Sciences,
Raebareli Road, Lucknow- 226014
sgpgigenetics@gmail.com

About the course:

The Department of Medical Genetics has been organizing short courses in Genetics for the clinicians. The 23rd ICMR course will be held from 21st September to 03rd October 26. This course introduces genetics and aims at training paediatricians, obstetricians and other clinicians in basic aspects and clinical applications of medical genetics and its advancements. In this 2-week course, principles of basic genetics, cytogenetics, karyotyping, molecular genetics, Sanger sequencing, NGS, Microarray, genetic counselling, and prenatal diagnosis will be covered. Along with lectures, demonstrations (lab and clinical) and interactive sessions will be held to clarify the principles of medical genetics. It will provide the participants an opportunity to enter the fascinating new world of molecular genetics, which is becoming an important part of all branches of medicine in the 21st century.

Eligibility: The course is for medical specialists. Clinicians with postgraduate degree (MD/ MS/ DNB), and postgraduate students in any clinical specialty can apply. Post graduates from other allied specialities and basic scientist already working in the field of Medical Genetics are also welcome. Kindly provide CV in Email before registering in case of doubt.
