

Nineteenth ICMR Course on Medical Genetics and Genetic Counseling

Pedigree to Genome

1st August, 2022 to 13th August, 2022

Organized by: Department of Medical Genetics, Sanjay Gandhi Postgraduate Institute of Medical Sciences, Rae Bareli Road, Lucknow- 226014

About the course:

The Department of Medical Genetics has been organizing short courses in Genetics for clinicians. This course provides an introduction to genetics and aims at training paediatricians, obstetricians and other clinicians in basic aspects of clinical genetics and their clinical applications. In this 2-weeks course, principles of basic genetics, cytogenetics, molecular genetics, genetic counseling and prenatal diagnosis will be covered. Along with lectures, demonstrations (lab and clinical) and interactive sessions will be held to clarify the principles of medical genetics. **The course is aimed at training clinicians in counseling for common genetic problems and to identify clinical situations requiring genetic evaluations. It also covers the indications and interpretation of various genetic tests including karyotyping, mutation testing, microarray and exome sequencing.** It will provide the participants an opportunity to enter the fascinating new world of molecular genetics, which is becoming an important part of all branches of medicine in the 21st century.

Eligibility: The course is for medical specialists. Doctors with postgraduate degree (MD/MS) and postgraduate students in any clinical specialty can apply.
