Message

It gives us great pleasure to announce that the department of Hematology, SGPGI is organizing the forthcoming prestigious annual meeting of The Cytometry Society of India (TCS- India), from 9th to 12th October 2019. Flow cytometry has now been utilized for decades and continues to be a vital tool in scientific research and routine patient care. There has been vast improvement in the technology, development of newer fluorochemicals as well as development of newer algorithmic tools for data analysis, which has led to a paradigm shift in the application of flow cytometry.

Keeping in pace with the new advances in the field, the forthcoming Annual TCS Conference will be dealing not only with basic flow cytometry in hematological disorders for the beginners, but also focus on the newer tools for analysis in onco-hematology, cancer stem cell identification and residual disease analysis harmonization across various institutes. With multiple parallel sessions we will also have experts dealing with the applications of flow cytometry in benign and malignant hematology, infectious and cancer immunology and basic science research. The four parallel workshops has also been designed to cover various facets of flow cytometry applications.

Lucknow is the capital of the state of Uttar Pradesh, the largest state in India, and profoundly called as the *City of Nawabs*. The city is known for its rich culture and *Ganga-Jamuna-tehzeeb*. The famous embroidery artwork of *Chickankari* and the traditional dance form of *Kathak*, both originated from Lucknow. In addition, the own *Awadhi cuisine* of Lucknow has remained an attraction for tourists since decades.

With the success of our past endeavours in emanating knowledge in the field of flow cytometry, we look forward to your active participation in this forthcoming exciting event as well. The conference would provide a wonderful platform to learn from our national and International speakers and freely discuss issues from routine practice.

Your presence at our conference will be much appreciated and is vital for the true success of the event.

Workshop Program

DAY 1 (9.10.2019)		
Inauguration and Introduction	09:00 to 09:15	P G Subramanian
Newer Tools for Flow cytometric analysis in Onomatology	09:15 to 09:55	Francois Lacombe
Residual disease monitoring in the era of targeted therapy/CART T	09:55 to 10:40	Maryalice Stevenson
Corporate Talk	10:40 to 11:00	
Tea Break and Poster Viewing	11:00 to 11:20	
Parallel Sessions	11:20 to 13:00	
Basic Level Haematology		
Advance haemato-oncology		
Immunology & Basic Science Research		
Lunch and Poster Viewing		
Best Research Paper (Unpublished) 5 each research & clinical	14:00 to 15:20	
Corporate Talk	15:20 to 15:35	
Tea Break and Poster Viewing	15:35 to 15:55	
Best Published Paper	15:55 to 16:25	
Evaluation of peripheral blood Dendritic cells in health and diseases	16:25 to 16:50	PraffulKumar Tailor
Monofunctional and Polyfunctional T cells: Lesson learnt from HIV pathogenesis	16:50-17:15	Vainav Patel
EC Meeting	17:15 to 18:00	
DAY 2 (10.10.2019)		
Consensus guidelines for MM MRD analysis & reporting	08:30 to 09:10	Maryalice Stevenson
Multicentre harmonisation in flow cytometry analysis and its impact on MRD assessment	09:10 to 09:50	Francois Lacombe
Cancer stem cells: Isolation and characterisation	09:50 to 10:10	Urmi Chatterjee
Immune Dysregulation in malignant disorders	10:10 to 10:30	TBD
Tea Break and Poster Viewing	10:30 to 10:50	
Immune Dysregulation in chronic viral Infections	10:50 to 11:10	Sunil Kumar
Role of Flow Cytometry in Immunodeficiency Disorders	11:10 to 11:30	Manisha Madkaikar
Flow Cytometry in Non neoplastic Haematology.	11:30 to 11:50	ManUpdesh Singh Sachdeva
Flow Cytometry in Non haematological neoplasms	11:50 to 12:10	Namrata Punit Awasthi
Quality assurance and good cytometry practices.	12:10 to 12:30	Anil Handoo
Corporate Talk	12:30 to 12:40	
Lunch Break and Poster Viewing	12:40 to 13:40	
Parallel Sessions	13:40 to 18:00	
Clinical Case Presentation		
Basic Research		
General Body Meeting TCS	18:00 to 18:30
