Name of department: Medical Genetics

Name of program: DM

List of extra efforts for slow learners (planned):

1. Remedial classes with one to one interaction
2. Different learning exercises to help them get a hang of the topics that are hard to comprehend- Starting from basics and giving non-medical examples for comparison
3. Allocation of peer mentors for better understanding of complex topics
4. Making Use of Active Learning by real life comparisons
5. Rewarding them even if their performance is improving at a slow pace.

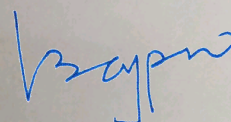

Any incentives for fast learners:

- 1) Giving recognition by a word of appreciation in an email
- 2) Featuring them on our departmental activities published in institute's newsletter
- 3) Appreciation during interinstitutional tele meet
- 4) Encouraging them to participate and present data in national and international conferences.

Name of department: Radiodiagnosis

Name of program: M.D. (Radiodiagnosis)

List of extra efforts for slow learners:

1. More attention is given to supervise the postings and the Senior resident posted with the junior residents are also requested to guide them in preparation of seminars and case presentations.
2. During the ultrasound postings, more attention is given to slow learners to guide them in performing ultrasound. The senior residents and faculty supervise them more vigilantly.

Any incentives for fast learners:

The fast learners are incentivised further by encouraging them to present papers in conferences. The faculty guide and encourage them to write case reports/ articles for possible publications.

Thus, the fast learners are encouraged towards research work.
